Gent.me / Preg.mi,

Si ricorda che, in riferimento alla conclusione della fase transitoria per il rilascio dell'AIC ai medicinali allergeni per immunoterapia, ai sensi della Determinazione AIFA DG 2130/2017 e s.m.i., i Titolari dei prodotti non ammessi a tale procedura autorizzativa (Allegato 2) erano stati destinatari di un provvedimento di diniego, con il quale, tuttavia, era consentito il completamento del ciclo di terapia, al fine di garantire la continuità terapeutica ai pazienti già in trattamento.

In relazione a quanto sopra riportato, AIFA informa che, considerato il tempo trascorso dall'adozione dei citati provvedimenti, entro sei mesi, sarà emanato un apposito provvedimento di cessazione di "commercializzazione per continuità terapeutica" dei medicinali allergeni, di cui all'Allegato 2 sopra citato. Analoghe disposizioni si applicheranno ai medicinali allergeni per immunoterapia, rispetto ai quali i Titolari che hanno presentato domanda di AIC, hanno successivamente rinunciato all'iter di conclusione della fase transitoria per il rilascio dell'AIC (Allegato 3).

Il comunicato è stato pubblicato in data 21/03/2024 al seguente link:
<https://www.aifa.gov.it/it/-/avviso-di-prossima-cessazione-della-continuit%C3%A0-terapeutica-dei-medicinali-a-llergeni-per-immunoterapia>.

Alla luce di quanto sopra indicato, si invitano i medici prescrittori ad effettuare una rivalutazione dei pazienti in terapia con i medicinali in oggetto.

Si invitano le SS.LL. in indirizzo ad informare tutti i soggetti interessati.

Distinti saluti.

Il Direttore
